

## **FREE Confident KS3 and KS4 Physics Teaching CPD**

These **FREE** CPD sessions are aimed at non-specialist Physics teachers in Secondary Schools. This is an opportunity to attend 3 days of **FREE** physics CPD to improve your knowledge and confidence, and to try out a range of practical teaching strategies.

A unique feature of our training is the dedicated maths session. Participants will learn how, and when, the maths needed for physics is taught in students' maths lessons. We combine this with physics knowledge to look at strategies for teaching and applying maths in physics lessons.

### 2016 – 17 Sessions Available
